SPECIMEN COLLECTION

TEST PANEL ORDERS (All test panels include validation testing for determination of dilution and adulteration)

DIRECT-TO-DEFINITIVE DRUG TESTING (direct to LC-MS/MS analysis)	
comtoxO <input type="checkbox"/>	COMPREHENSIVE TOX PANEL Confirmatory level testing used for selective identification and quantitation of over 100 drugs and metabolites with drug classes that include amphetamines, benzodiazepine (therapeutic and designer), ecstasy, gabapentinoids, heroin, opiates, oxy-opiates, muscle relaxants, sedatives (non-benzodiazepine), synthetic stimulants (bath salts), antidepressants and antipsychotics.
	
Scan the QR code for a listing of all drugs and metabolites in the direct-to-definitive and confirmation panels	
buptoxO <input type="checkbox"/>	BUPRENORPHINE TOX PANEL Buprenorphine, norbuprenorphin, naloxone, nornaloxone
<input type="checkbox"/> OTHER TEST(S) <i>Specify</i> _____	

DRUG CONFIRMATION ORDERS

amphetO	<input type="checkbox"/> AMPHETAMINES	Amphetamine, methamphetamine, MDMA, MDA, MDEA, phentermine, pseudoephedrine	heroinO	<input type="checkbox"/> HEROIN	Morphine, 6-acetylmorphine
benzoO	<input type="checkbox"/> BENZODIAZEPINES	Alprazolam, α -hydroxyalprazolam, clonazepam, 7-aminoclonazepam, diazepam, nordiazepam, lorazepam, oxazepam, temazepam, midazolam, flurazepam, hydroxyethylflurazepam, triazolam, α -hydroxytriazolam	hydroxycO	<input type="checkbox"/> HYDROCODONE & HYDROMORPHONE	Hydrocodone, hydromorphone, norhydrocodone, dihydrocodone
buprenO	<input type="checkbox"/> BUPRENORPHINE	Buprenorphine, norbuprenorphine, naloxone, nornaloxone	methadO	<input type="checkbox"/> METHADONE	Methadone, EDDP
cocainO	<input type="checkbox"/> COCAINE	Cocaine, benzoylecgonine	nicotnO	<input type="checkbox"/> NICOTINE	Cotinine
ecstasO	<input type="checkbox"/> ECSTASY	MDMA, MDA, MDEA	opiateO	<input type="checkbox"/> OPIATES	Morphine, codeine, 6-acetylmorphine, oxycodone, noroxycodone, oxymorphone, noroxymorphone, hydrocodone, norhydrocodone, hydromorphone, dihydrocodeine
etgetsO	<input type="checkbox"/> ETHANOL METABOLITES	Ethylglucuronide (ETG), ethylsulfate (ETS)	oxyopO	<input type="checkbox"/> OXYCODONE	Oxycodone, noroxycodone, oxymorphone, noroxymorphone
fentylO	<input type="checkbox"/> FENTANYL	Fentanyl, norfentanyl, betahydroxyfentanyl, 4-ANPP (synthetic precursor)	pcpO	<input type="checkbox"/> PHENCYCLIDINE	Phencyclidine
